State Management: GetX, Bloc, Provider

Backend & APIs: REST APIs, Firebase, SupaBase

Databases: MySQL, Firestore, SupaBase

Tools: Git, Postman, Basecamp

CI/CD: GitHub Actions

Platforms: Android, iOS

Methodologies: Agile, Waterfall

AI-Assisted Development: Google Antigravity, GitHub Copilot, Cursor, Replit for AI-driven development, code optimization & debugging

Professional Experience

Software Developer (Tier III)

Genetech Solutions, Pakistan | Oct 2023 – Present

- Developed and launched **10+ mobile applications** using Flutter and Kotlin for Android & iOS
- Improved app performance by **30%** through optimized API integration and efficient coding practices
- Integrated **REST APIs and Firebase services**, enabling real-time features and enhanced user engagement
- Collaborated with UI/UX designers to deliver responsive, user-friendly interfaces
- Reduced post-release bugs by **50%** through improved testing and QA practices
- Mentored junior developers, improving team productivity and code quality
- Managed deployment and updates on **Google Play Store and Apple App Store**
- Utilized **AI-assisted development tools** to speed up feature delivery and improve code quality

Software Developer (Tier I)

Genetech Solutions, Pakistan | May 2023 – Sep 2023

- Contributed to development of **7+ cross-platform mobile applications**
- Built UI components and integrated RESTful APIs for seamless user experience
- Collaborated with senior developers to enhance Flutter and native development skills
- Performed debugging, testing, and optimization to ensure application stability
- Managed deployment and updates on **Google Play Store and Apple App Store**

Associate Software Developer

Genetech Solutions, Pakistan | Apr 2021 – Apr 2023

- Developed Android applications using **Kotlin/Java** and transitioned to Flutter
- Integrated REST APIs and third-party services
- Collaborated with cross-functional teams to deliver new features
- Improved app performance and resolved technical issues
- Managed deployment and updates on **Google Play Store**

Android Developer

Minhasoft, Karachi | Dec 2019 – Apr 2021

- Developed Android applications using **Kotlin and Java**
- Designed responsive UI using XML layouts
- Integrated APIs and optimized app performance
- Supported deployment and post-launch updates on **Google Play Store**

- Assisted in Android app development and UI design
 - Fixed bugs and implemented small features
 - Learned best practices in mobile development
