

MUHAMMAD ZEESHAN

Senior Flutter Developer | Mobile Application Engineer

Karachi, Pakistan • +92 312 2309493 • zeeshanayaz1@gmail.com

[Portfolio](#) • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Senior Flutter Developer with 6+ years building and shipping production mobile applications on Android and iOS. Have taken 15+ apps from architecture through Play Store / App Store release, sustaining 4.5+ average ratings. Strong in Clean Architecture, MVVM, REST API integration, and Firebase, with a track record of improving app performance and reducing post-release defects. Comfortable owning a feature end-to-end and mentoring junior developers along the way.

TECHNICAL SKILLS

Languages: Dart, Kotlin, Java, Python, JavaScript

Frameworks: Flutter, Android SDK (XML), React Native

State Management: GetX, Bloc, Provider

Backend & Data: REST APIs, Firebase, Supabase, MySQL, Firestore

Architecture: Clean Architecture, MVVM

Tools & CI/CD: Git, GitHub Actions, Postman, Basecamp

AI-Assisted Development: Claude, GitHub Copilot, Cursor, Google Antigravity, Replit

PROFESSIONAL EXPERIENCE

Software Developer (Tier III) | Genetech Solutions, Pakistan

Oct 2023 – Present

- Led development and release of 10+ mobile applications on Flutter and Kotlin across Android and iOS, owning each from architecture through Play Store / App Store launch
- Improved app performance by 30% through optimized API integration and more efficient coding practices
- Cut post-release bugs by 50% by tightening testing and QA processes before release
- Integrated REST APIs and Firebase services to power real-time features and boost user engagement
- Mentored junior developers on Flutter best practices and code quality, raising team productivity
- Brought AI-assisted development tools (Claude, GitHub Copilot, Cursor) into the team's workflow to speed up feature delivery and improve code quality
- Partnered with UI/UX designers to ship responsive, user-friendly interfaces

Software Developer (Tier I) | Genetech Solutions, Pakistan

May 2023 – Sep 2023

- Built UI components and integrated RESTful APIs across 7+ cross-platform mobile applications
- Worked alongside senior developers to deepen Flutter and native Android development skills
- Handled debugging, testing, and optimization to keep applications stable across releases

Associate Software Developer | Genetech Solutions, Pakistan

Apr 2021 – Apr 2023

- Developed native Android applications in Kotlin/Java, then transitioned into Flutter for cross-platform delivery
- Integrated REST APIs and third-party services into production apps
- Collaborated with cross-functional teams to plan and ship new features

Android Developer | Minhasoft, Karachi

Dec 2019 – Apr 2021

- Built Android applications in Kotlin and Java with responsive XML-based UI
- Integrated APIs and optimized app performance
- Supported post-launch updates and maintenance on Google Play Store

Android Intern | Minhasoft, Karachi

Sep 2019 – Nov 2019

- Assisted with Android app development, UI design, and bug fixes while learning production development practices

EDUCATION

Bachelor of Science in Software Engineering (BSSE)

University of Karachi (UBIT) - 2018

FEATURED PROJECTS

Brokerware - 3PL Systems Inc. (*Flutter, REST APIs*) - Native mobile companion app for a global transportation management system (TMS) platform

Empire Developments (*Flutter, REST APIs, Firebase*) - Property showcase app for a premier luxury real estate developer in Dubai, UAE

HeySmarty (*Flutter, Firebase, AI, Chatbot, Socket APIs*) - AI-powered assistant app delivering smart recommendations and automation

Nutri-west (*Flutter, REST APIs, Firebase*) - Healthcare e-commerce app for browsing and ordering health products

Pocket MPOS (*Kotlin, Java, XML*) - Point-of-sale software with reporting, built for small and large businesses

Additional Projects: Padzee (online clipboard with real-time sync), AI Photobooth (AI-based avatar/image generation), Sequence Royale (card game with IAP), Serpent Tales (arcade game), Multi Timer Stopwatch (Single and Group Timer app with foreground/background services).

ACHIEVEMENTS

- Published 15+ mobile apps on Google Play Store and Apple App Store, maintaining 4.5+ average ratings
- Hackathon Winner — Genetech Solutions
- Published open-source flutter package on pub.dev: Custom Accordion

CERTIFICATIONS

- Version Control with Git (Coursera)
- Mastering Cross-Platform App Development with Flutter (Udemy)
- Python Programming
